

Application

For on-frame patch & splice application, the desire to clamp onto the frame rather than a FieldSmart FxDS Panel may be desired to address proper cable sweep from the frame into the panel. The frame clamp can also be used to manage incoming cable at an additional location on the frame when a more robust and rigid capture is required due to the O.D. size of the cable and the number of incoming cables.

Description

The Frame Clamp Kit comes with bracket for mounting onto the frame, clamp shells and mounting hardware. Mounts to 19" or 23" standing frames or cabinets.

Features & Benefits

- Can be used on any frame
- Comes with multiple size clamp
- Holds cable diameters up to 1" in diameter

Pre-configured Part Numbers

Part Number	Description
008140	Frame Clamp Kit
008139	Splice Deck Clamp Kit
