FieldShield® SmarTerminal
Accessories

Universal L-Bracket

Description

The FieldShield Universal L-Bracket is used to attach the FieldShield Multiport SmarTerminal to the side of any enclosure using the snap-on toggle head. The FieldShield Multiport SmarTerminal simply snaps into the toggle head for quick deployment.

Pre-Configured Part Numbers

Part Number	Description
015867	L-bracket, snap-on toggle head, SmarTerminal

Universal Z-Bracket

Description

Used to attach the Multiport SmarTerminal to the side of a CraftSmart® box or pedestal, the Universal Z-Bracket provides easy access by sliding into one of the two integrated side mount slots on each side of the Multiport SmarTerminal.
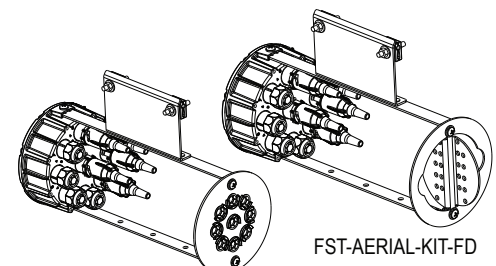

Pre-Configured Part Numbers

Part Number	Description
015538	Z-bracket, side mount, SmarTerminal

Aerial/Strand Mount Bracket

Description

The FieldShield Aerial/Strand Mount Bracket allows the FieldShield Multiport SmarTerminal to be deployed in an aerial/strand mount application.

FST-AERIAL-KIT-FD

FST-AERIAL-KIT

Pre-Configured Part Numbers

Part Number	Description
FST-AERIAL-KIT	Kit, aerial/strand mount bracket for SmarTerminal for use with FieldShield aerial microducts
FST-AERIAL-ADP-KIT-10-8	Kit, for adapting 10 mm to 8 mm microduct, includes nine 8" 10 mm black ducts and nine 8 mm to 10 mm couplers
FST-AERIAL-KIT-FD	Kit, aerial/strand mount bracket for SmarTerminal for use with flat drop cables

FieldShield® SmarTerminal
Accessories

Single Cable Hardened Pushable Connector Kit

Description

The Single Cable Hardened Pushable Connector Kit provides a weather tight outer housing for FieldShield pushable assemblies and connects to either the FieldShield SmarTerminal or hardened pushable bulkhead adapter.

Pre-Configured Part Numbers

Part Number	Description
FST-HARDENED-CONN-KIT	Kit, hardened pushable connector for 3 mm FieldShield cable, single cable 3 mm grommet
FST-HARDENED-CONN-KIT-4MM	Kit, hardened pushable connector for 4 mm FieldShield cable, single cable 4 mm grommet

Dual Cable (Y-Adapter) Hardened Pushable Connector

Description

The FieldShield Dual Cable Hardened Pushable Connector provides the components to distribute two separate LC simplex drop cables directly from a single port on the FieldShield SmarTerminal or the Y-Adapter Bulkhead Adapter Kit. The 3 mm version is also used for 12-fiber pushable MPOs, while the 4 mm grommet accepts 24-fiber pushable MPOs.

Pre-Configured Part Numbers

Part Number	Description
FST-HRD-CON-KIT-3MM-2X	Kit, Hardened Pushable Connector for 3 mm FieldShield cable, dual cable 3 mm grommet
FST-HRD-CON-KIT-4MM	Kit, Hardened Pushable Connector for 4 mm FieldShield cable, single cable 4 mm grommet

Hardened Connector Y-Adapter Bulkhead Adapter Kit

Description

The Bulkhead Adapter Kit provides a dual LC adapter in a small re-enterable bulkhead, which can be direct buried or deployed in an outside plant access enclosure, extending the service access point to the customer lot line.

Components

- Bulkhead with dual LC Adapter
- Protective Dust Cap
- Connector Single Cable Collar
- Connector Single Cable Housing
- Connector Single Cable Split Grommet
- Connector O-Ring - Quantity 2

Pre-Configured Part Numbers

Part Number	Description
FST-HRD-LCU-Y-KIT-3MM	Kit, hardened FieldShield Y-adapter, single 3 mm cable grommet, LC/UPC duplex bulkhead
FST-HRD-LCA-Y-KIT-3MM	Kit, hardened FieldShield Y-adapter, single 3 mm cable grommet, LC/APC duplex bulkhead

FieldShield® SmarTerminal
Accessories

Hardened Pushable Connector Dust Cap

Description

The Hardened Connector Dust Cap is used to protect hardened pushable connectors from outside plant environments when drop cables are installed prior to the SmarTerminal's deployment. When ordered with an adapter, the kit can be used to join two cables, extending the overall length of the drop.

Pre-Configured Part Numbers

Part Number	Description
FST-DUST-CAP	Dust Cap for Hardened Connectors
FST-DUST-CAP-SCA	Dust Cap, with bulkhead union adapter and SC/APC adapter for hardened connector
FST-DUST-CAP-SCU	Dust Cap, with bulkhead union adapter and SC/UPC adapter for hardened connector
FST-DUST-CAP-LCA	Dust Cap, with bulkhead union adapter and duplex LC/APC adapter for hardened connector
FST-DUST-CAP-LCU	Dust Cap, with bulkhead union adapter and duplex LC/UPC adapter for hardened connector

Sealcon Adapter Kit

Description

The Sealcon Adapter Kit is used to deploy flat drop or OSP cable in the Multiport SmarTerminal. Simply, knockout the center feeder port adapter of the Patch and Splice SmarTerminal and install the adapter to fit the cable.

Components
- Sealcon ¾" Strain Relief Adapter
- Sealcon ¾" Strain Relief Nut
- Sealcon O-Ring
- Grommet inserts for 0.24" to 0.63" OD OSP Cables

Pre-Configured Part Numbers

Part Number	Description
FST-SEALCON-KIT	Kit, sealcon ¾", nut, o-ring, grommet, inserts for OSP and flat drop cables
