

Application

The CraftSmart Angled Wall Plate allows for easy demarcation inside the premise for incoming feeder cable.

Description

The CraftSmart Angled Wall Plate can accommodate a single SC/APC connector. This small indoor faceplate offers a clean place to hold your home entrance cable. The angled design of the connection provides a low profile, natural strain relief. This plate and snap-in module is available in white. The SC/APC adapter is included with the wall plate.

Features and Benefits

Integrity

- Supports industry standard SC/APC adapters

Protection

- Angled design provides a safe place to house and connect SC/APC connector

Access

- Easy installation
- The wall plate is designed to attach to a single-gang outlet box

Investment

- No splice, clean, plug-and-play connection
